Celebrate Dining in Stockton!

The **Great Stockton Asparagus Dine Out** invites ALL local foodies and families to enjoy delicious dishes prepared with locally grown asparagus by featuring asparagus related menu items at participating restaurants throughout Stockton.

The **Great Stockton Asparagus Dine Out** was created by the Stockton Conference & Visitors Bureau, following our successful annual Stockton Restaurant Week, to showcase locally grown asparagus and its use in local cuisine! Farm to Fork and Eat Locally Grown campaigns highlight the importance of eating fresh locally grown produce. Local growers will work with local restaurants to provide the freshest locally grown Asparagus to their kitchens. Our most famous locally grown spear may be featured in appetizers, entrees, desserts and drinks!
